

Disbot.top - Bot Certification

Introduction

Bot certification is the approval of bots that represent the disbot.top name and are classified as bot partners with disbot.top. If a bot meets all the requirements listed below the bot is eligible to become a certified bot on disbot.top. This gives the bot a checkmark on the website along with a special page and other cool features!

Requirements

- The bot must be a 'Verified Bot' on Discord.
- The bot must be in at least 100 guilds.
- The Bot must be online for the majority of the time. Update and maintenance are excepted.
- Must be a good quality bot
- Must undergo a detailed review by disbot.top staff and reviewers to ensure the bot is of good standard to be certified on the platform.

Certified Terms

Bots that are certified can be removed from certification at any time without notice. Bots that are certified are in a type of partnership with disbot.top and must not break the below terms.

- Talking badly about the disbot.top platform, staff, operations and/or members.
- Use the disbot.top name negatively or using disbot.top assets (logo etc.) in a bad way.

Applying

Becoming certified is very straight forward. Once *all* requirements are met the bot creator can open a ticket through the disbot.top website and simply request to become certified and list the bots name to be certified. See the example below.
